Users and Auth

- `/users/login` (POST)

- Request Body:

```
{
  "username": "string",
  "password": "string",
}
```

- Response Body (success):

```
{
  "message": "Login successful.",
  "data": {
    "id": "string",
    "username": "string",
    "role": "string",
    "token": "string"
  }
}
```

- `/users/register` (POST)

- Request Body:

```
{
  "username": "string",
  "fullName": "string",
  "email": "string",
  "phone": "string",
  "password": "string",
}
```

- Response Body (success):

```
{
  "message": "Register successful.",
  "data": null
}
```

- `/users/me` (GET)

- Request Body (empty):

- Response Body (success):

```
{
  "message": "Profile fetched successfully",
  "data": {
    "id": 0,
    "username": "string",
    "fullName": "string",
    "email": "string",
    "phone": "string",
    "balance": 1000,
    "environmentalImpact": 1000,
  }
}
```

- `/users/points` (GET)

- Request Body (empty):

- Response Body (success):

```
{
  "message": "Points fetched successfully",
  "data": {
    "username": "string",
    "totalPoints": 10000,
    "currentBalance": 2000,
    "environmentalImpact": 2000,
    "redeemedPoints": 8000,
  }
}
```

- `/users` (GET)

- Request Body (empty):

- Response Body (success):

```
{
  "message": "Users fetched successfully",
  "data": [
    {
      "id": 0,
      "username": "string",
      "fullName": "string",
      "email": "string",
      "phone": "string",
    },
    {
      "id": 1,
      "username": "string",
      "fullName": "string",
      "email": "string",
      "phone": "string",
    }
  ]
}
```

- `/users` (POST)
 - Request Body:

```
{
  "username": "string",
  "fullName": "string",
  "email": "string",
  "phone": "string",
  "password": "string",
}
```

- Response Body (success):

```
{
  "message": "Users created successfully",
  "data": null
}
```

- `/users/{id}` (GET)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "Users fetched successfully",
  "data": {
    "id": 0,
    "username": "string",
    "fullName": "string",
    "email": "string",
    "phone": "string",
  }
}
```

- `/users/{id}` (PUT)

- Request Body:

```
{
  "username": "string",
  "fullName": "string",
  "email": "string",
  "phone": "string",
  "password": "string",
}
```

- Response Body (success):

```
{
  "message": "Users updated successfully",
  "data": null
}
```

- `/users/{id}` (DELETE)

- Request Body (empty):

```
{
  "message": "Users removed successfully",
  "data": null
}
```

Leaderboard

- `/leaderboard` (GET)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "Leaderboard fetched successfully",
  "data": [
    {
      "rank": 1,
      "fullName": "string",
      "totalPoints": 1000,
      "currentBalance": 1000,
      "environmentalImpact": 1000,
    },
    {
      "rank": 2,
      "fullName": "string",
      "totalPoints": 1000,
      "currentBalance": 1000,
      "environmentalImpact": 1000,
    },
  ],
}
```

- `/leaderboard/my-rank` (GET)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "Leaderboard fetched successfully",
  "data": {
    "rank": 100,
    "fullName": "string",
    "totalPoints": 1000,
    "environmentalImpact": 1000,
  }
}
```

WasteType

- `/waste-type` (GET)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "WasteType fetched successfully",
  "data": [
    {
      "id": 0,
      "name": "string",
      "code": "string",

      "CO2Factor": 20,
      "isActive": true,
    },
    {
      "id": 1,
      "name": "string",
      "code": "string",
      "pointTariff": 100,
      "CO2Factor": 20,
      "isActive": true,
    }
  ]
}
```

- `/waste-type` (POST)
 - Request Body:

```
{
  "name": "string",
  "code": "string",
  "pointTariff": 100,
  "CO2Factor": 20,
  "isActive": true,
}
```

- Response Body (success):

```
{
  "message": "WasteType created successfully",
  "data": null
}
```

- `/waste-type/{id}` (GET)
 - Request Body(empty):

- Response Body (success):

```
{
  "message": "WasteType fetched successfully",
  "data": {
    "id": 0,
    "name": "string",
    "code": "string",
    "pointTariff": 100,
    "CO2Factor": 20,
    "isActive": true,
  }
}
```

- `/waste-type/{id}` (PUT)
 - Request Body:

```
{
  "name": "string",
  "code": "string",
  "pointTariff": 100,
  "CO2Factor": 20,
  "isActive": true,
}
```

- Response Body (success):

```
{
  "message": "WasteType updated successfully",
  "data": null
}
```

- `/waste-type/{id}` (DELETE)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "WasteType removed successfully",
  "data": null
}
```

- `/waste-type/top` (GET)
 - Request Body (empty):

- Response Body (success):

```
{
  "message": "WasteType reports fetched successfully",
  "data": [
    {
      "id": 0,
      "name": "string",
